

AMONG MANY VAPOWARE ICO PROJECTS

THIS IS THE REAL PROJECT WITH A REAL EQUIPMENT PRODUCTION IN A HIGHLY DEMANDED SECTOR OF FOOD AND CANNABIS.

\$200,000 RAISED

ATF IS A REAL PRODUCTION OF HOME AND INDUSTRIAL EQUIPMENT FOR THE AUTOMATED CULTIVATION OF ORGANIC PRODUCTS AT ANY TIME, ANYWHERE IN THE WORLD AND IN ANY CLIMATIC CONDITIONS.

The ATF equipment is a unique device designed for the automated cultivation of tomatoes, cucumbers, strawberries, salads, cannabis and more.

The ATF does not require professional agronomical skills or specific knowledge in the sphere of crop production.

All operations related to photosynthesis are pre-programmed for each type of culture at all stages of growth.

Users can easily monitor and control the growth cycle using their smartphones, computers or tablets, which makes the cultivation similar to a game process.

SINCE 2012 | SEVERAL PATENTS | WORKING PRODUCT | PRE-SERIES MODEL IS READY

Our solution

**INSTALLATION AT EACH HOUSE | ALWAYS FRESH PRODUCTS IN SMALL SHOPS | INSTALLATION IN APARTMENT BUILDINGS FOR ALL RESIDENTS
INSTALLATION IN REMOTE REGIONS | VERTICAL AGRO FARMS**

TOKENOMICS

The total supply 5,000,000 ATF tokens | 65% - 3,250,000 for sale | 1 ATF = 0.012 ETH (about \$10) | Early purchase bonuses

Advantage for buying tokens

Token gives a sale for the ATF equipment with 20% discount.

Token gives 50% discount on consumables.

Tokens will be placed on the cryptocurrency exchange. Buyback token.

Ecosystem for the purchase by consumers of food products grown in ATF equipment from producers.

The goal of the ICO project is to raise investments of \$ 20,000,000 for large-scale production and sales of the ATF equipment worldwide.
